DISCOVER THIS SPECIAL PLACE

A first time visit to the Yorkshire Wolds often comes as a surprise. The outstanding quality of the landscape is a truly wonderful discovery. The peace and quiet of the area brings a welcome respite from the pressures of everyday life. This is a very special landscape.

Here lies chalk - shaped over millions of years into a combination of hidden and lush green dry chalk valleys and wide open field tops, where the views stretch out for miles and miles.

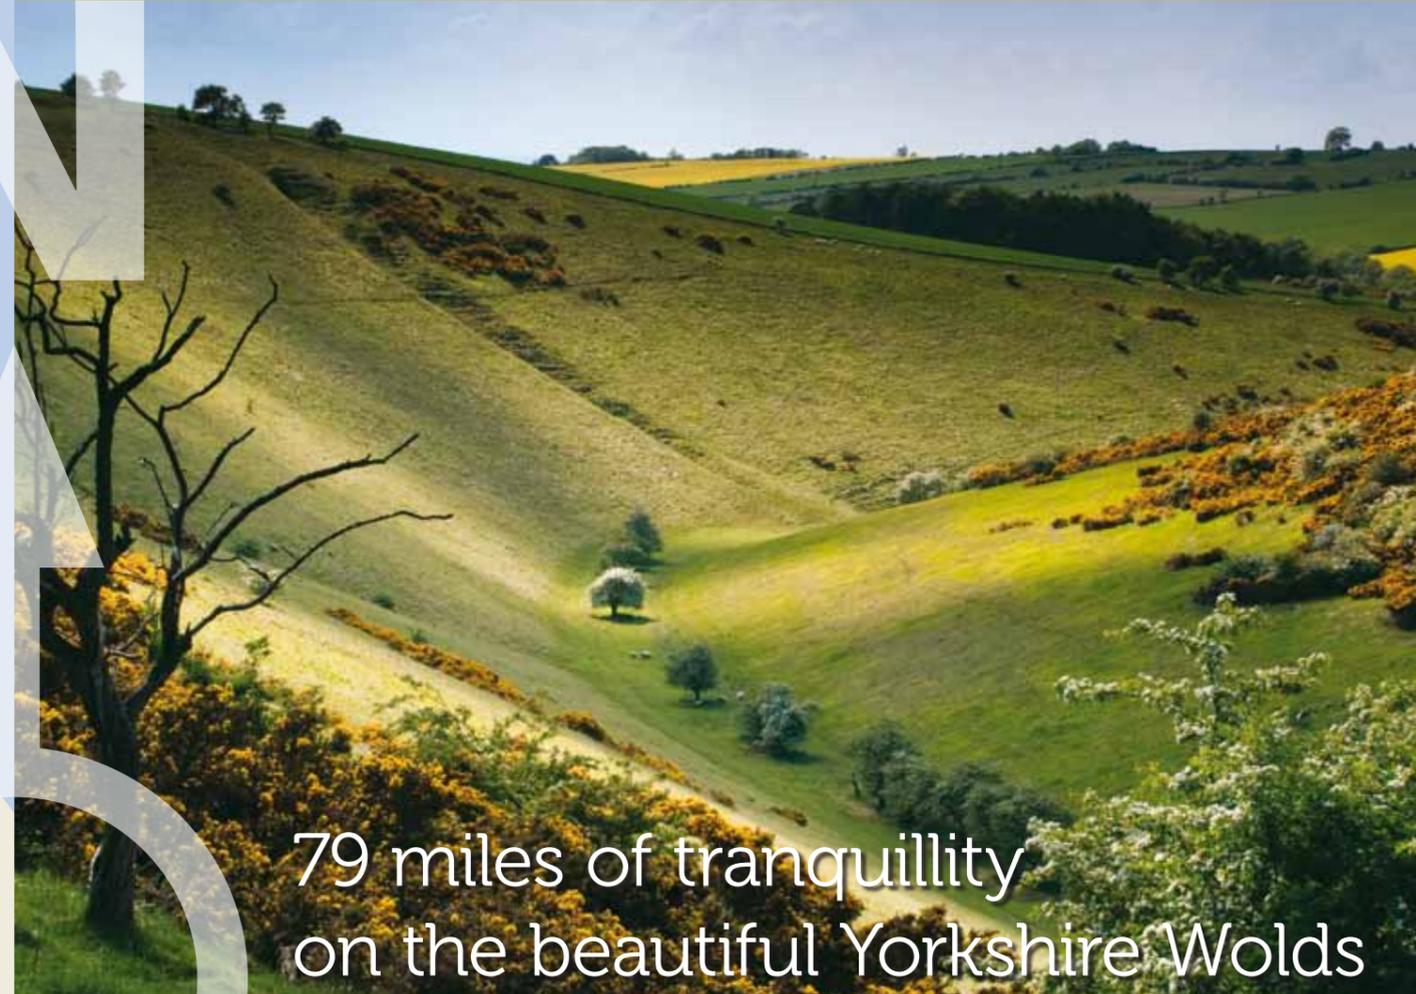

The Yorkshire Wolds Way National Trail gives you a chance to walk some or even all 79 miles on a journey across this unique piece of countryside.

Along the way you will discover how the rich layers of countryside are complemented by the heritage of the Yorkshire Wolds, such as the parkland of Londesborough and the deserted medieval village of Wharrah Percy.

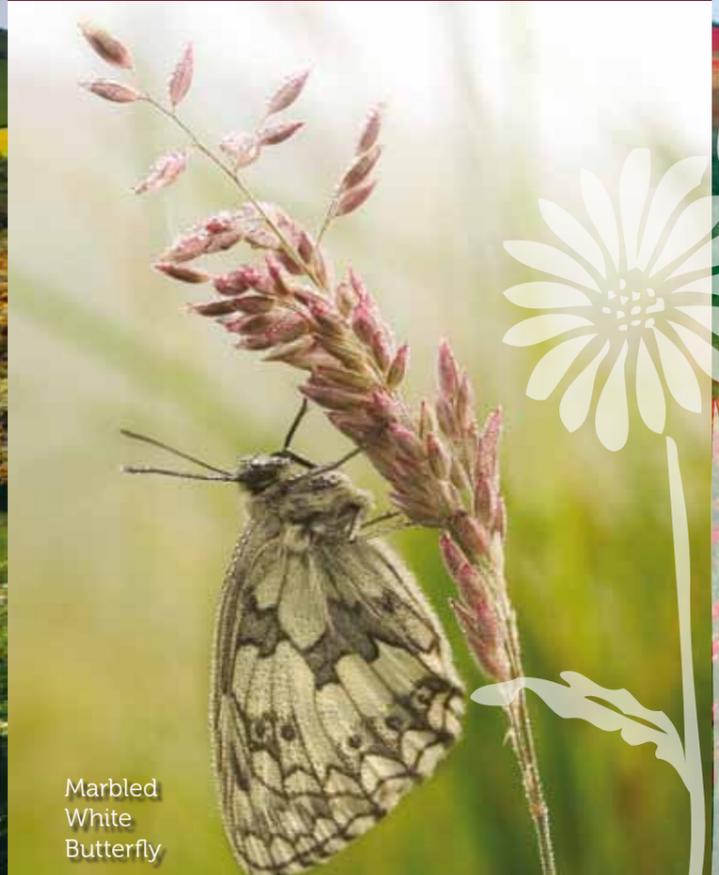

And let's not forget the wildlife – as in any visit you are almost sure to spot hares on the ground – and red kites in the sky. At the same time don't miss some of the dramatic artworks from the WANDER – art along the Yorkshire Wolds Way project.

NEW TO WALKING?

The great thing about the Yorkshire Wolds Way is that it is a good route if you are new to countryside walking. There are plenty of easy sections, which we have details of on our website, and because it is a National Trail the signing is superb, so you won't get lost easily! There are also plenty of short circular walks along the route that will give you a flavour of this area.
